HATCHERIES AND DEALERS PARTICIPATING  
in  
THE NATIONAL POULTRY IMPROVEMENT PLAN

(January 1, 1946)

The publication of this list is for the purpose of developing greater efficiency in the operation of the National Poultry Improvement Plan. Additional information regarding these hatcheries and dealers may be obtained by writing to them, or to the official State agency in their respective States. Due to the fact that changes frequently occur in this list, it is suggested that anyone desiring to purchase hatching eggs or chicks from the listed hatcheries write the official State agency before making such purchase. Supplements to this publication containing changes in participation will be published periodically.

## Foreword

The hatcheries and dealers listed in this publication are participating in the National Poultry Improvement Plan, according to reports submitted by the official State agencies. The hatcheries are listed alphabetically by States. Only a few States have participating hatching-egg and chick dealers, and for these States the dealers are listed immediately following the list of hatcheries.

The figures in parentheses, which appear after the names of certain hatcheries, indicate the breeds and varieties of U.S. Certified chicks produced by the hatchery. The code used for indicating breed and variety is as follows:

- 1 - Single-Comb White Leghorn
- 2 - Single-Comb Rhode Island Red
- 3 - Barred Plymouth Rock
- 4 - White Plymouth Rock
- 5 - New Hampshire
- 6 - White Wyandotte
- Other breeds are named

The figures in the right-hand column indicate the hatching-egg capacity. The breeding stages and pullorum classes are indicated by abbreviations as follows:

U. S. Approved, Pullorum-Tested	-- APT
U. S. Approved, Pullorum-Controlled	-- APCd
U. S. Approved, Pullorum-Passed	-- APP
U. S. Approved, Pullorum-Clean	-- APC
U. S. Certified, Pullorum-Tested	-- CPT
U. S. Certified, Pullorum-Controlled	-- CPCd
U. S. Certified, Pullorum-Passed	-- CPF
U. S. Certified, Pullorum-Clean	-- CPC
U. S. Pullorum-Tested (no breeding stage)	-- PT
U. S. Pullorum-Controlled (no breeding stage)	-- PCd
U. S. Pullorum-Passed (no breeding stage)	-- PP
U. S. Pullorum-Clean (no breeding stage)	-- PC

Hatcheries and dealers desiring to participate in a breeding stage of the plan are also required to qualify for one of the pullorum classes; but in some States they may participate in a pullorum class without taking part in the breeding-improvement phase of the plan. In such States, U. S. Pullorum-Tested, -Controlled, -Passed, or -Clean hatching eggs or chicks may be produced that are not U. S. Approved or U. S. Certified. Therefore, U. S. Approved and U. S. Certified hatcheries and dealers should be sure that any hatching eggs or baby chicks purchased are of both the proper breeding stage and pullorum classification. This list should be helpful in finding the classification of the hatchery or dealer from whom purchase is to be made. Information concerning the status of hatcheries not listed may be obtained by writing to the contact representative.

The name and address of the contact representative and the official State agency are indicated at the beginning of the list of hatcheries for each of the cooperating States.

In accordance with a recommendation made at the 1945 meeting of the Emergency Executive Committee, the following table shows for each State the maximum pullorum tolerance for the U. S. Pullorum-Tested and U. S. Pullorum-Controlled classifications.

State	Pullorum Tolerance	
	U.S. Pullorum-Tested (percent)	U.S. Pullorum-Controlled (percent)
